

Ener-G Foods, Inc.

Product Request Form

Dear Store Manager or Food Buyer,

I am requesting your store to carry Ener-G products.

For individuals with food allergies/intolerances or who must be on a special restrictive diet, it is very difficult to find ready-made, wholesome, and, most importantly, safe foods to eat. Ener-G Foods, Inc. is one of the very few companies who caters to the hypoallergenic market.

Ener-G Foods, Inc. has been a manufacturer of diet restricted foods for over 47 years. They produce over 150 wheat-free, gluten-free, casein-free, dairy-free, peanut-free, tree nut-free, and kosher-certified products. They even offer low protein, yeast-free, egg-free, soy-free, and corn-free options as well.

Ener-G products include breads, buns/rolls, pizza shells, cookies, pretzels, crackers, desserts, pasta, egg replacer, flours, and baking ingredients.

For product samples and more information, please contact Ener-G Foods at toll-free **1-800-331-5222** or email **customerservice@ener-g.com**.

Thank you so much for your time and consideration!
